

DeepKnowledge™

Your library at your fingertips

Why DeepKnowledge™?

DeepKnowledge™ team is a group of highly motivated professionals including librarians, developers, graphic designers, and database and network administrators. The platform is tried and tested and being used by more than 100,000 end users and administrators.

DeepKnowledge™ platform is continuously monitored and updated to include latest features and enhancements.

“TechKnowledge provided an excellent portal that is of a great value to our doctors, staff and pharmacists; DeepKnowledge™ enhances their knowledge and supports them in making quick, critical, life saving decisions.”

*Alice Haddadin, Library Director.
King Hussein Cancer Center.*

“Techknowledge team is an energetic, devoted, hard working and worth trust team. Who are special because of their focus not only on one side of the picture but on all aspects related to it which is key for successful projects. They was one of the pioneer on joining events which brought together users, librarians along with publishers to create a transparent work environment. they have supported lots of the new initiatives in the region and supported workshops and conferences along with their tremendous support to librarians.

I have knowing Techknowledge and work with them on all different types of projects for more than 7 years now.”

*Afra Al Shamsi,
Head of the Library
Royal Hospital*
